OUR COMMITMENT

DEPENDABLE ACCESS. QUALITY-ASSURED SUPPLY.

Vitalife Pharma is a Zimbabwean pharmaceutical wholesale company focused on reliable access to quality-assured medicines, medical products and healthcare supplies.

We connect reputable local and international sources with pharmacies, clinics, hospitals, laboratories, government institutions, NGOs, veterinary practices and other healthcare providers through responsive procurement, dependable distribution and customer-focused support.

WHO WE ARE

COMPANY BACKGROUND

Incorporated in Zimbabwe on 24 July 2025, Vitalife Pharma (Private) Limited is a pharmaceutical wholesaler serving the public and private healthcare sectors. The company was established to improve access to dependable, affordable and quality-assured healthcare products.

Our model brings procurement, strategic sourcing, distribution and customer support into one coordinated supply relationship. We fulfil routine, bulk, emergency and specialised orders while maintaining a clear focus on product integrity, regulatory alignment and reliable service.

Vitalife serves community pharmacies, clinics, hospitals, laboratories, government institutions, NGOs, veterinary practices and other healthcare providers across Zimbabwe, with wider regional reach forming part of the company's distribution ambition.

OPERATIONAL STRUCTURE

BUILT FOR RESPONSIVE HEALTHCARE SUPPLY

Vitalife combines pharmaceutical, procurement, supply-chain and customs capabilities to support responsive sourcing, compliant market access, dependable distribution and customer-focused delivery.

PROCUREMENT & SOURCING

Routine, bulk, emergency and specialised procurement through reputable local and international sources, guided by client requirements, value and regulatory considerations.

DISTRIBUTION & LOGISTICS

Coordinated fulfilment and delivery designed to protect product integrity, improve availability and provide dependable service across Zimbabwe.

REGULATORY & PRODUCT SAFETY

Support for registration, import documentation, compliance navigation, pharmacovigilance, post-market monitoring and product-quality reporting.

SERVICE PILLARS

HEALTHCARE FOCUS

SUPPLY ENGINE

PRODUCT ACCESS & LOGISTICS

Pharmaceutical procurement and supply are supported by strategic sourcing, supplier relationships and order planning tailored to each client's requirements.

Distribution and logistics services support hospitals, pharmacies, clinics, laboratories, government institutions, NGOs, veterinary practices and other healthcare providers.

MARKET SUPPORT

REGULATORY, SAFETY & GROWTH

Regulatory affairs and pharmacovigilance support help clients and manufacturing partners navigate product registration, import documentation, compliance and post-market safety responsibilities.

Sales, market development, product guidance and after-sales support help strengthen product visibility, customer confidence and long-term supply relationships.

WHAT WE SUPPLY

HEALTHCARE PRODUCTS & SOLUTIONS

PHARMACEUTICALS

Prescription medicines, over-the-counter products, vaccines, chronic-disease therapies, anti-infectives and other essential medicines sourced from reputable manufacturers for public and private healthcare providers.

SURGICAL, DIAGNOSTIC & REHABILITATION

Surgical instruments and consumables, point-of-care and laboratory diagnostic devices, rapid test kits, patient-monitoring devices, wheelchairs, walking aids, physiotherapy equipment and other mobility solutions.

MEDICAL EQUIPMENT & CONSUMABLES

Patient-monitoring systems, hospital furniture, emergency-care and sterilisation equipment, together with syringes, gloves, dressings, IV sets, catheters, wound-care and infection-prevention supplies.

VETERINARY PRODUCTS & DRUGS

Veterinary pharmaceuticals, vaccines, nutritional supplements, consumables, diagnostic products and animal-health solutions supporting livestock, companion animals and poultry.

ACCOUNTABLE SUPPLY. CLEAR STANDARDS.

Vitalife's operating approach places quality, product integrity and regulatory alignment at the centre of procurement and distribution. The company supports compliant documentation, responsible product handling and clear communication throughout the supply relationship.

REGISTERED PROCUREMENT CATEGORIES

Vitalife holds active 2026 PRAZ registrations covering medical and laboratory equipment and consumables (GM002), pharmaceuticals and medical supplies excluding drugs (GP004B), pharmaceuticals and medical drugs, supplies and consumables (GP004), and veterinary drugs, vaccines and chemicals (GV001). The supplied certificates expire on 31 December 2026.

PRODUCT INTEGRITY & SAFETY

Pharmacovigilance and post-market support include adverse-event reporting, product-quality monitoring and engagement with manufacturers, healthcare professionals and regulatory authorities.
